

Post-16 Evening - Tuesday 21st September, 4pm-6pm.

The evening is designed for you and your son/daughter to meet with a range of post-16 providers, including Sixth forms, colleges and apprenticeships, as well as a wide range of people from various employment backgrounds.

It will allow you an opportunity to have discussions about routes into further and higher education, as well as address more specific issues regarding course selections. Providers will be on-hand to answer any questions, address any concerns you have and to review applications. It is important to us that all students make the right decisions post-16, we are offering this evening to assist with these choices.

We hope that you will support us in encouraging your child to attend the event, so that they can start to think about their next steps and are making an informed decision about their future.

If you would like any additional information regarding Post 16, careers or work experience, please do not hesitate to contact me at the academy by e-mail, v.fosker@oeacademy.co.uk or by calling the academy.
