

To make a perfect tense verb negative, put **ne** (or **n'**) ... **pas** around the part of *avoir* or *être*.

Je n'ai pas visité le musée.

Nous ne sommes pas allés en vacances.

First decide if the infinitive takes **avoir** or **être**, then look at the subject and use the correct part of the verb. Be sure to form the past participle correctly. Also remember to add agreement to the past participles of verbs that take **être**, where necessary.
