To explain fully

To explain what Christians believe our purpose is and why

Christians believe that our purpose is to follow God. One example of how Christians practice this is through stewardship, which is the idea that Christians should look after and care for God's creation. This is shown in Genesis when Adam and Eve are asked to name and look after all the different animals in the world. Another example of how Christians practice this is through having loving relationships with each other and God as God intended when he created humans. Christians believe that this is our purpose because they believe that we were created by God and as such should follow his instructions in order to go to heaven. They also believe that we have this purpose as it is important to look after the environment in order to pass it on to future generations.
