

Topic sentence - Answer the question by making a statement. Introducing the topic of the paragraph.

To make a judgement

What is our purpose?

Our purpose is to create our own purpose. This is because without creating our purpose there would be no guidance in our lives and we would be aimlessly moving from task to task. However, if we create our own purpose based on who we are as individuals then it will give our lives meaning that was not there before.

Added details - to show why Plato's cave is relevant today, make sure that you give lots of detail and examples in order to better support your judgement.
