Enrichment Day Update

Thank you to all parents who helped their child make a selection for our final Enrichment Day of the year (7th July). A message is going out this evening to parents of children who have not signed up, or who unfortunately have not been allocated to an activity due to having reached capacity, inviting them to a second round of sign up. It is hoped that students will all take this opportunity to indicate their preference from the available opportunities. If you have any questions regarding this, please get in touch.

Duke of Edinburgh Expedition

On Thursday 22nd and Friday 23rd May, we will have some students who will be doing their practice expedition for their DofE bronze award. If your child is participating in this, please could you ensure that they have all of the necessary equipment that they may need, or have informed us of any equipment that they will need to borrow. We are aiming to leave school on Thursday no later than 7:45, so please ensure that students arrive on time. With regards to picking students up on the Friday, we aim to return around 5pm. However, this is dependent on how quickly students complete their practice expeditions so timings are subject to change. We will ask students to message home with a more specific time.
